BANKERS AND BROKERS

Boston, Mass., April 16.—Heavy selling of Granby yesterday caused shlerable uneasiness among the small holders and there was contimes! Equidation this morning with practically no buying orders until reaction had extended 3% points to 76%. At this price good support was turnished and rally was rapid to \$2 at the close. Reason given for decline and selling is that the ere from the Old Granby mines has een require low for several months and that cost of treating Hidden Creek area is higher than expected, but this rumor cannot be officially cond med. Greene Can, was weak again on scattered selling due to abor troubles. More reassuring news on the Mexican situation was responsible for a sharp rally near the close all through the list,
